REMARKS

Claims 10-14 and 16-73 stand allowed in the present application. By this paper, no amendments have been made. Therefore, Claims 10-14 and 16-73 are presented for examination herein.

*IDS*

Applicant, in his ongoing research and related consulting work, has performed more searches, although non-exhaustive. The results of the searches are provided in the IDS provided herewith and the references submitted herewith. Applicant respectfully submits that none of the prior art references, alone or in combination teach or suggest the Applicant's invention as claimed herein. Applicant also noted that some of the references in some of his other pending cases were in the same field as the current case, so felt it proper to submit all art in others of the Applicant's cases that were in the field of the invention.

*Summary*

Applicant respectfully submits that all of the claims remain allowable over the prior art of record. Therefore, Applicant respectfully requests the Examiner to issue a third notice of allowance at the earliest possible time.

Applicant hereby specifically reserves the right to prosecute claims of different or broader scope in a continuation or divisional application.

Applicant notes that any claim additions or cancellations made herein are made solely for the purposes of more clearly and particularly describing and claiming the invention, and not for purposes of overcoming art or for other reasons related to patentability. The Examiner should infer no (i) adoption of a position with respect to patentability, (ii) change in the Applicant's position with respect to any claim or subject matter of the invention, or (iii) acquiescence in any way to any position taken by the Examiner, based on such additions or cancellations.

Furthermore, any remarks made with respect to a particular claim or claims are intended to be limited only to such claim or claims.

If the Examiner has any questions or comments which may be resolved over the telephone, he is requested to call the undersigned at (305) 735-8533.
